## Vertical Limit Earns Governor's Safety Award

(Wanamingo, MN) March 7th, 2018 - Vertical Limit will be recognized for excellence in workplace safety and health at the Governor's Safety Awards luncheon on May 10 at the Minneapolis Convention Center, coordinated by the Minnesota Safety Council.

"Congratulations to Vertical Limit for helping to make life safer inside their organization and beyond," said Paul Aasen, president of the Minnesota Safety Council. "Safety may start at work but it extends to the roads and to home and we are all safer due to the good work by Vertical Limit."

"Workplace safety is our most important focus and it's great to see it pay off. We're happy and honored to accept this award," said Vertical Limit's Safety Manager, Padriac Casey.

Since 1934, the annual Governor's Safety Awards program has honored Minnesota employers with exceptional safety performance. Applicants are judged on several years of injury data as it compares with their industry's national statistics, and on their progress in implementing a comprehensive safety program.

The Governor's Safety Awards luncheon is part of the 84th annual Minnesota Safety & Health Conference, coordinated by the Minnesota Safety Council. The conference is the oldest and largest gathering of workplace safety and health professionals in the region. The Minnesota Safety Council, founded in 1928, is a non-governmental, not-for-profit organization dedicated to improving the quality of life in Minnesota by preventing unintentional injuries ("accidents").
